An International Textile Coloration Platform

6-7-8 Aug 2025
Colombo, SL

Indychem – An International Textile Coloration Platform is set to be a landmark event which aims to bring together industry leaders, innovators, and professionals from around the world to showcase the latest advancements in textile dyes and chemicals industry and demonstrate cutting-edge technologies, sustainable practices, and innovative solutions for the textiles and apparel industry stakeholders and buyers across Sri Lanka, South Asia and other emerging markets. InDyChem will be co-located with 3rd InMac and 17th Intex Sri Lanka, the region's premier international trade exhibitions for sourcing of textiles and clothing accessories, advanced machinery and new technologies and solutions for the apparel industry. The event will feature a range of activities, including an exhibition, conferences, and B2B networking opportunities, designed to foster collaboration and knowledge sharing.

As the global textile industry focuses on sustainability, with innovations in dyes and chemicals centred on eco-friendly processes, waterless dyeing, and digital printing, and while also exploring smart materials and 3D printing for textiles, we invite you to embark on a journey with us in Sri Lanka at InDyChem 2025.

With over 15 successful shows organized across the key textile & apparel countries of Sri Lanka, Bangladesh and India since 2015, **Intex** is firmly established as the largest international textile sourcing show of South Asia. Having connected 55,000+ trade buyers from over 40 countries to 2500 + textile suppliers over the last 15 editions, it has empowered industry players to explore new business opportunities, forge worldwide connections and stay up-to-date with latest developments making Intex South Asia the annual calendar event for South Asia's Textile & Apparel industry.

InMac is an international exhibition showcasing cutting-edge advanced machinery and new technology to support the textile & garment industry for South Asia region. Held concurrently with Intex – The Premier International Textile Sourcing Show, InMac will offer domestic and overseas companies direct opportunity to launch their latest innovative products and solutions, connect with key decision makers and buyers across the industry, generate sales leads & business enquiries and network with industry peers across the supply-chain and complete production value-chain across South Asia and other international markets.

The Sri Lanka Advantage

As the industry continues to evolve, the **Sri Lankan industry is actively developing backward linkages and creating value chains to enhance efficiency.** This includes strengthening its textile manufacturing verticals while also offering optimized apparel solutions to global customers.

Renowned for its high-quality products and ethical manufacturing practices as a manufacturer of garments without guilt, Sri Lanka exported garments worth \$4.5 billion in 2023.

Sri Lankan textile and apparel **industry is actively working towards greater sustainability and ethical sourcing, embracing certifications, responsible practices,** and a growing focus on eco-friendly chemicals and materials. Machinery and process optimization is a common practice that almost all Sri Lankan apparel manufacturers have incorporated to reduce their energy and emission footprint.

As the Sri Lankan industry continues to adapt to global trends, investing in advanced technology, developing local value chains and prioritizing sustainability, **the country is well-positioned to export high-quality products, making it a valuable partner for global brands.**

Why Exhibit?

Regional Hub:

Serves as the central hub for the textile and garment industry in South Asia, attracting professionals from across the region.

Global Reach:

Intex & InMac's strategic location and reputation draw visitors from the MENA, Central Asia and South Asia region, expanding market reach across industry hubs.

Networking Opportunities :

Connect with key decision-makers from across the supply and production value chain. Network with potential partners and key stakeholders to build strong partnerships.

Market Insights:

Gain valuable insights, buyers' preferences, industry trends and demands, sustainable and eco-friendly practises, and new technologies across the dyes & chemicals industry.

Take advantage of this opportunity to connect with industry leaders and drive business forward.

Exhibitor Testimonials

It's a good opportunity that we have participated under InMac Showcase @ Intex exhibition. We first participated last year and the response was good. Hence, we decided to go ahead with two stalls this year. We see the industries coming and huge opportunity for us as well. And for all these suppliers who are here in Sri Lanka, it is an opportunity to connect with the entire customer base here. Only machinery show is good, but here we have everything under one roof, which will give more opportunities to the buyers.

Aadil Asmat, Director,
Standard Holdings, Sri Lanka

We could meet top buyers and brands especially those working in Sri Lanka, where we could have various discussions with them on the technologies we have in terms of finishes, moisture management, anti-bacterial and wrinkle-free and so on. We could interact with most of the mills and brands here. We are happy to be here and had two wonderful days of interactions. Looking for to the next one.
